# FOUR OFFICIALS IN HEMP CORNER?

Senate Committee Probing Into an Alleged Army Scandal Involving Men of High Rank.

#### STOCK TRADED FOR INFLUENCE.

Promoters Understood That the Government Would Aid Them in Controlling Hemp Product of the Philippines.

REPUPLIC SPECIAL.

Washington, Oct. 1.-In return for the use of their influence, four officials of the Gov. ernment were to participate in the distribution of \$150,000 worth of stock in the Manila Rope and Cordage Company.

This was the serious charge made by Major E. L. Hawks during the course of the investigation of his charge of scandalous conduct made against Lieutenant Colonel H. O. S. Heistand, Assistant Adjutant General, which is undergoing investigation by a subcommittee of the Committee on Military Affairs of the Senate.

The officials who it is claimed were to have a share of the proportion of stock stated were former Assistant Secretary of War Meiklejohn, former Assistant Attorney General Boyd, Adjutant General Cor-bin and Lieutenant Colonel Heistand, Heistand, according to Hawks, was to receive \$40,000.

Some of the Men Withdrew. Hawks testified that Lieutenant Colonel Heistand eventually informed him that General Corbin and Assistant Secretary of the Navy Allien had withdrawn from the com-pany. General Corbin denied to Major Hawks that he had any connection whatever with the enterprise

ever with the enterprise.

Senator Hawley, chairman of the subcommittee, read a cablegram addressed to
"Agwar," the cipher word for "Adjutant
General," and signed by Major General
Otis, giving information concerning valuable sites between Bacoor and Cavite for
the proposed hemp factory. Major Hawks
asked why an official roofs beauty asked why an official reply should have been made to a private cablegram, such as Lieutenant Colonel Heistand stated yes-terday he had sent to General Otis. Promise of the Prospectus.

Th capital stock of the company was first fixed at \$1.000,000, and then increased to \$1. 0000,000. The prospectus declared there was no doubt that the United States Government would look favorably upon the enter-prise, and stated that stock would only be disposed of to men of enterprise and in-fluence. Major Hawkes, continuing his testimony,

asked that Colonel Heistand produce a memorandum, made in May, 1899, by the Colonel and himself, in which \$150,000 of the promoters' stock of the Manila Rope Com-pany was apportioned. Counsel for Heis-tand said his client had no knowledge of such a document, but would search for it.

"Burn This Letter."

Hawkes detailed a conversation with
Heistand in October, 1899, in which Heistand told him that Corbin and Allen had with-drawn from the combination and that Mel-klejohn had asked for the return of Hawkes's letter of introduction. It was

Plan and Scope Translated Into Many Languages,

The Bureau of Publicity soon will issue 1,000,000 copies of the "Plan and Scope of the World's Fair" in German, French, Spanish and English text. The order for Spanish and English text. The order for the printing of the pamphlet has been given. It will be distributed in France, Germany, Spain and the British Isles.

After the appeniaments of foreign representatives in these countries, thousands of copies of the booklet will be sent out. The idea in sending out the "Phan and Scope" is to acquaint foreigners with the official declaration of the Exposition Company to hold an International Exposition of hitherto unparalleled magnitude. The booklets will be followed after a time by more picturesque narratives of the Fair, accompanied by pictures of the architecture of the Exposition.

BASEBALL SEASON NEARING END.

Talk of Transferring Double-Header
With Cincinnati to Local Park.

The National League senson is dying a slow death, a few games here and there keeping interest revived to some extent. In St. Louis the season is prectically dead, although there is a chance that it may be revived for one day only. There is talk of bringing the double-header scheduled for Cincinnati next Sunday to the local park. The fact that a game at the fagend of the season with the so-called Giants drew 18,000 to League Park last season is the argument that is being used in suggesting the change. After to-day's game the Reds will go South for exhibition games. Cincinnati, although it is supporting a tall-ender, is, nevertheless, very kind to its club, and the gameg there last week and this have drawn well. There is just a possibility that the transfer of the two games may go through.

RAIN SPOILS FOOTBALL PRACTICE. Local Elevens Confined to Light Work -Important Games in East.

- Important Games in East.

Rain interfered with the practice of the local football teams yesterday, although the St. Louis University contingent defled the weather and went through light practice on a muddy field at Handlan's Park, the usual number of candidates being on hand.

All the men are working hard to be in readiness for next Saturday's game with the West Ends at Handlan's Park. The St. Louis University line-up, as arranged at present consists of the following players and second choices: Right end, McLean and Schauvecker; right tackle, Bhaw; right guard, Linn and Davis; center, Johnson and Buttner; left guard, Hickey and Grace; left tackle, Mooney; left end, Ewing; right half, Pennington; left half, Moran; full back. Kiely; quarter back, McDowell.

Schauvecker has shown up well in late I ractice and should make the team without of fliculty. At the opening of the season he was rather slower than the remainder

of the team, failing in the rapid play which is characteristic of most of the local elevions this season. He has gained speed of late, however, and is regarded as one of the stand-bys at end.

Johnson, considered one of the best centers in the city last season, will play again at this position Saturday. He has shown consistently well in practice and should be a strong man for the position, His work in the game against Rolla last year will be remembered. The members of that team stated that he was inquestionably the best center they had opposed that season. Besides the West Ends, which will be played October 5, two games have already been settled by Manager O'Nelli, these being the Manual game, October 12, Negotiations are pending for a Thanksgiving game with some strong team, but nothing definite has been airranged as yet.

Great interest is being shown at Washing.

Great interest is being shown at Washing

Great interest is being shown at Washington University over the game with Depauw next Saturday, and from present indications there will be a revival of the football feeling throughout the college this winter which prevailed several years ago. The prospects for the team are considered good, although it is conceded that a hard proposition is to be tackled in Depauw.

The Greencastic boys have been at work longer than the Washington University men, having had nearly a month of hard practice and one game already. The easy manner in which they defeated the Manual Training of Indianapolis last Saturday proves them a formidable bunch, as the Indianapolis school is an institution where many experienced men go to improve themselves in their trade. Bucking up against a lot of men hardened by lessons and practice in fron work and similar employments is no cinch, and that the Depauw eleven defeated the team so easily speaks in its favor.

If Washington, in its first game of the

defeated the team so easily speaks in its favor.

If Washington, in its first game of the season, can defeat this team its prospects are second to none in this part of the country. Practice at Washington only started in earnest about four days ago, and some of the men expected to play in Saturday's game did not show up for practice on the opening days.

In spite of their disadvantages from lack of work, great confidence is felt in the Washington boys, and the attendance will probably be larger than has been the case in the last few seasons. Several tally-ho parties are being arranged, and the game will be quite a social affair.

To-day will be a big occasion in football circles in the East, the leading colleges coming out for the second game of the season. Princeton will appear for the first time with Villa Nova College, and considerable interest is felt in the game on account of the important factor the eleven is expected to be in the East.

Games are scheduled as follows:
Yale vs. Amherst at New Haven.
Cornell vs. Rochester at Ithaca.
Princeton vs. Villa Nova at Princeton.
Pennsylvania vs. Franklin and Marshall at Philadelphia.

t Philadelphia. Harvard vs. Bowdoin at Cambridge. Dartmouth vs. New Hampshire College

Dartmouth vs. New Hampshire College at Hanover.
Chicago vs. Illinois Wesleyan at Chicago. Several games scheduled will prove a more difficult proposition for the leading colleges than the teams they encountered last Saturday. Cornell, for instance, will have no easy time with Rochester, to judge from form, while Yale is up against a slightly harder question in Amherst than she was in Trinity last week. Pennsylvania should win easily and should keep her opponent from scoring.

Coach Stagg of Cheage seems to be paying dearly for the grand eleven he developed in the autumn of 1899 for the University of Chicago. He was compelled to begin with almost an entire set of new men last year, and this year has again an eleven composed mainly of men who have never played for the college before. He may turn out a fine team by the end of the season, but it hardly appears as if he could raise it to the level of Northwestern, Minnesota, Wisconsin and Michigan.

The most important amateur athletic games held in St. Louis this season will take place at the Pair Grounds October 9 and II of Pair Week. These games have been sanctioned by the Western Association of the Amateur Athletic Union, will complex to exceeding events. programme will consist of seventeen rises of which will be handicap affairs

## LONDON WATCHED BULLETINS.

Delighted With the Performance of Lipton's Yacht.

SPECIAL BY CABLE London, Oct. 2 .- (Copyright, 1901, by the New York Herald Company.)-Excitement, disappointment, lethargy, renewed excitement, enthusiasm, delight-these, in brief, may be described as the various emotions which excited all London yesterday over the yacht races.

It was reported in the morning that the wind was fine, just suiting the Shamrock. Did it last?

wind was nne, just suiting the Snamrock. Did it last?

Excitement was first caused by the fact that the account of the result of last Saturday's race gave anticipation of a great race yesterday. The disappointment arose when, notwithstanding the reports of the early morning, the wind became so poor that it augured an abortive day.

The lethargy succeeded when the news came that the yachts were becalmed and the excitement was renewed when the bulletins announced that the Shamrock II was leading, even in face of the prevailing idea that the Columbia was the better boat in light airs.

that the Columbia was the better boat in light airs. The enthusiasm shown when the Shamrock II was reported to be gaining turned to sheer delight when the Shamrock II led so well at the finish.

Over yesterday's attempt, one need hardly say, the disappointment and delight were shared equally, both by Americans and Englishmen, who congregated around the bulletin boards, at the hotels and around the agency tapes. The result of Saturday's race and yesterday's sailing, it is evident, has created renewed interest in the forth-coming races. The general opinion both among English and Americans here is that Sir Thomas has every chance at last of "lifting the cup."

Is more common than we may think, if we define gluttony as eating beyond the body's need of sustenance and beyond the body's need of sustenance and beyond the stomach's capacity for digestion and assimilation of food. That is a fair definition, and it fastens the name glutton on many a person who would resent the term as an insult. The fact of this the term as an insum.
gluttony is marked by its cons. quences.
The overloaded stomach becomes diseased. The popular term for the condi-tion is "weak" stomach. The "weak" stomach fails in furnishing adequate na-trition for the body, and soon the "weakness" spreads from the stomach to other

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect assimilation of food, by which alone the health and strength of the body is maintained.

"Your medicine helped me so much that I cannot praise it too highly," writes Mrs. C. L. Brooks, of Poland, Androscoggin Co., Ma. "The first dose I took helped me. I cannot for the how I felt when I took it; I was suffering everything with indigestion, and my stomach was a bloated that it seemed as though it man burn. My husband said he was going for the dotter, but I said if he weelld get me a bottle of the 'Golden Medical Discovery' I would try that I had not taken it long when I felt relieved, are have not had a touch of indigestion or stomach trouble since. I had been sick for four years, and less than four bottles carred ms. The Golden Medical Discovery tell me that the 'Golden Medical Discovery' tell me that the 'Golden Medical Discovery' tell me that they also say they don't see how I can do such large washings as I do now, when I had not done a washing for so long."
